Re: Docket #07-16

Dear Secretary Dortch,

Using the internet is a daily routine for many Americans who use it for work, education or play. It's hard to imagine a day without using the internet or e-mail. Because it is so much a part of how our country operates, it is important that everyone have access to the internet and its benefits.

I'm glad to hear that M2Z Networks is proposing a plan to provide free, fast broadband to anyone with a modem. By having more homes and businesses on-line, more Americans can fully connect with the world around. Also, more schools and public places would save money while providing fast internet access.

I hope you'll approve the proposal to allow for more broadband internet availability across this country. We all need to be as connected and competitive as possible, and not fall behind what other countries are already doing.

Sincerely,

Jeffery L. Tansill
